DESCRIPTION

The FBT CANTO 5CA series speakers feature lightweight, gas-injected polypropylene enclosures. Available in black or white finish, the FBT CANTO 5CA provides fixed installations with an elegant design that blends into any decor. The asymmetrical shape of the FBT CANTO 5CA cabinet also allows for use as a powered floor stage monitor. The FBT CANTO 5CA is a two-way design incorporating a 5" coaxial low-frequency woofer with a 1.5" voice coil and a 1" high-frequency driver with a 1" voice coil, coupled to 90° dispersion. On-board digital signal processing with dynamic equalizations and protections for high SPL; with a frequency range of 70Hz to 20kHz, the FBT CANTO 5CA provides high fidelity sound for both speech and music applications with a maximum SPL of 117dB. The bi-amp FBT CANTO 5CA active speaker features a 100W RMS low-frequency woofer and a 50W RMS high-frequency driver. The control panel features a Level control, HPF switch, Mic/Line selector, Stand-By LED indicator, PRT LED indicator, PRESET switch, 2 x XLR sockets (IN & LINK). A standard 1" speaker stand socket allows the FBT CANTO 5CA to be mounted on a speaker stand; in addition, two fixing points positioned at the rear of the cabinet allow the use of a horizontally and vertically adjustable wall support (WM-45).
