DESCRIPTION

The FBT VERTUS CLA 604 two-way passive speaker system incorporates 6 x 4" custom woofers with 1" voice coils and 4 x 1" neodymium dome tweeters on a waveguide. The FBT VERTUS CLA 604 shall meet the following performance criteria: frequency response of 140Hz to 20kHz, maximum SPL of 110dB (100W, 1m). The FBT VERTUS CLA 604 features an extruded aluminum construction; the front is protected by a heavy-duty metal grille and is fitted with fireproof cable according to UNI 9795 2010 (length 35.43 inches). The fixing system makes mounting easy and enables the speaker unit to be turned in the best direction. The FBT VERTUS CLA 604 can be set up in constant impedance or constant voltage mode (100V/50W-100W) thanks to an optional line transformer. The FBT VERTUS CLA 604 is intended for indoor installations.
